## EDUCATION

**2018-2021** • B.Tech(Electrical and electronics engineering)  
Vasireddy Venkataadri institute of technology(VVIT), guntur  
7.0 GPA

## PROFESSIONAL EXPERIENCE

### Pathbreaker Technologies

**Role: Software Engineer (SEP 2022 - Present)**

Lead the full-stack development of dynamic web apps using PHP, React.js, and related frameworks for user satisfaction. Enhanced frontend using HTML, CSS, and JavaScript for better speed and responsiveness. Built robust RESTful APIs, optimizing data management with third-party APIs. Collaborated closely with cross-functional teams, analyzing requirements and implementing feature-rich applications. and Involved in testing for optimal performance and security.

### Pathbreaker Technologies

**Role: Web developer(Intern) (Feb2022 - July 2022)**

I completed my internship as a web developer, where I gained valuable hands-on experience and applied my knowledge in creating functional and visually appealing websites.

## Project Portfolio:

### Project 1: PLUTO

**Duration: 3 Months**

**Role: Full stack developer**

I created an automated HR document system which generates payslip, offer letters, and hike notifications.

Used algorithms to calculate payslips accurately and to get document easily.

### Project 2: Invoice

**Duration: 2 Month**

**Role: Front-end Developer**

Developed and maintained responsive web applications using React.js, HTML, CSS, and JavaScript. Worked on integrating RESTful APIs and handling data retrieval and manipulation. Collaborated with cross-functional teams to gather project requirements and translate them into user-friendly and visually appealing web interfaces.

- Built and managed 20+ websites, displaying web development expertise.
- Used various tools and languages to create attractive, functional websites tailored to client needs.
- Worked closely with clients and teams, delivering websites on time and exceeding expectations.

## Declaration:

I hereby declare that the above information about me is true to best of my knowledge.
